ChancelCheck® Guidance Note

Chancel Repair Liability Background

Chancel repair liability is a medieval anomaly whereby the Church of England and Wales was granted powers to charge those owning “rectorial land” for the upkeep of the chancel of some Parish Churches.

Chancel repair liability affects millions of acres in England and Wales and is still deemed a usual and necessary search by conveyancers.

Chancel repair liability can still be attached to land regardless of whether or not the liability is noted against the title, making the prospective risk unquantifiable.

The Church continues to actively register their interest, to protect their right to charge for chancel repair liability in perpetuity.

ChancelCheck® Identifies the Problem

ChancelCheck®

ChancelCheck® is an online, low cost screening report designed to inform the Homebuyer of any potential chancel repair liability. It is in accordance with the Conveyancing and CML Handbooks.

Certificate

If the area of land selected falls within a parish that does not have the ability to claim for chancel repair liability, the search will be returned as a Certificate.

Report

If the area of land selected falls within a parish that has the ability to claim for chancel repair liability, a potential liability will be returned and the search will come back as a Report. **Where an issue has been identified, legal indemnity insurance could be sought to cover the potential risk.**

NB. ChancelCheck® does not publish the relevant parish name to deter contacting the Church. Doing so will put the Church on notice of a potential liability and may lead to negating insurance cover.
